Commissioner Fox addressed the commission with respect to this topic. He went through each line within the document and requested ideas to obtain information for missing data.

Commissioner Parks suggested that if any of the other commissioners have ideas to obtain missing information to contact him.

The commission reviewed each of the indicators further.

Commissioner Fox added that this document does not have to be submitted in January and could be submitted in February if necessary.

Further discussion ensued.

Commissioner Parks questioned if anyone had any additional thoughts regarding this item.

Commissioner Fox stated that in the past, things have been approved and been allowed for the responsible party to make small minor edits after the fact. He questioned if that would be possible in this case. **Ms. Smart** stated that she doesn't see where that would be a problem.

MOTION: Motion by **Commissioner Glover**, seconded by **Commissioner Hough**, to approve the recommendation for the Annual Report to the Mayor with the addition of the percent of household with 14 day emergency food cache as well as the number of students participating in the recycling education program, the information from GVEA and to include sub-notes related to the number of farms producing each year, the Borough operational energy consumption and the number of buildings with renewable energy systems.

Commissioner Glover queried why having liaisons is a problem.

Commissioner Parks stated that this commission does not, in borough code, have liaisons.

Commissioner Glover queried if this commission could recommend to the Assembly that liaisons be added to borough code.

Ms. Smart responded that the commission could make a recommendation to Administration and the Assembly to include them.

Commissioner Fox queried if it was possible for the commission to have a list of our experts that can be contacted when necessary. **Commissioner Parks** responded it is possible to contact resources when necessary for a specific meeting.

Further discussion ensued.

Ms. Smart added that Chair Parks' recommendation of contacting resources when necessary is the easiest way to manage this situation.

Commissioner Hough queried if liaisons were in borough code, would it be possible to have open communications between the liaisons and the commission. **Commissioner Parks** stated that it is possible as it is now. Commissioner Fox concurred.

Commissioner Glover stated that she feels it would be helpful to have in code not necessarily a list of specific organizations but identifying the liaisons area of interest that this commission would want and how many people (ie. Members of liaisons) to represent those to fill. **Ms. Smart** responded that it would have to be organization specific.

Further discussion ensued.

Mr. Quist requested clarification from Ms. Smart regarding Chapter 4.92.020(A). He queried if the duties as defined for this commission include working with liaisons to the community that are either agencies or engaged individuals and others. **Ms. Smart** responded that this commission has been advised that that is not proper and that liaisons are a very clearly designated thing that has to be done in code.

Mr. Quist queried if his presence at this meeting being appropriate per code. **Ms. Smart** replied that the Assembly has designated members to be representative on various committees.

Commissioner Glover suggested that code be modified to include liaisons. She stated that they add a valuable benefit to the commission and enhance the discussion.

Further discussion ensued.

Ms. Smart added that the proper way to provide recommendations is in the form of a letter or memo to the Assembly and Administration.

Commissioner Monetti commented that he feels that there are getting to be more and more things that this commission cannot do and following this meeting he is resigning from the commission.

Commissioner Hough stated that he does not see harm in opening code up to liaisons.

Commissioner Fox stated that he is supportive of liaisons. He suggested requesting if of the Assembly.

Commissioner Monetti added that the liaisons in the past have provided a lot of service to this commission. He stated that he doesn't understand where the problem is.

Commissioner Parks requested clarification regarding the 24 hour rule. **Mr. Williams** provided clarification to his question.

Commissioner Monetti commented that he will be out of state for two months next year and questioned if that was a valid excuse. **Mr. Williams** responded that he will have to call the clerk for the meeting(s) to be missed and arrange for teleconference capabilities.

Commissioner Glover commented that she cannot see how it would affect the public whether a person called in or came in to the meeting unless the privilege to

call in was being heavily abused on a regular basis. **Mr. Williams** stated that the 24 hour rule has nothing to do with the Open Meetings Act. The purpose of the 24 hour rule is so that staff and the clerk have time to prepare for the meeting. **Mr. Williams** further commented that code can always be amended. **Mr. Williams** reiterated that the purpose of this ordinance is to make sure commissioners are in attendance as much as possible.
